STRENGTHS AND SKILLS

- Conflict Resolution
- Time Management
- Communication Resilience
- Training and Development
- Difficult Decision Making
- Data Analytics
- Social Media Management
- Adaptability
- Teamwork
- Microsoft 365
- Google Workspace
- Adobe Premiere Pro

EXPERIENCE

Disneyland

December 2022 – Present

Galaxy's Edge Attractions Host

Trained as an Attractions Host for *Star Wars: Galaxy's Edge* on Millennium Falcon: Smugglers Run (December 25, 2022), Rise of the Resistance (April 12, 2023) and Guest Control. Responsible for welcoming Guests and providing information about the immersive story of Batuu. Explain rules and special instructions ensuring that safety protocols are followed at all times. Operate ride control systems, respond to emergency situations quickly and calmly. Report any maintenance issues to all parties necessary.

Millikan High School

August 2023 – Present

Boys Volleyball Assistant Coach

Returned to my former high school team to volunteer as an assistant coach for the Varsity, J.V. and Frosh/Soph volleyball teams. Used my experience as a high school player and 7 years of club volleyball to teach volleyball skills, leadership on the court and mentoring players about maintaining a positive attitude and strong work ethic.

Primo Prints Event Photography

June 2022 – November 2022

Event Photography Host

Worked part time at events as a photographer and host for a photo booth owner. Responsibilities included picking up all necessary equipment and supplies, setting up booth and props, maintaining and troubleshooting photo equipment, interacting with party guests to make them smile and enjoy the photos, then breaking down all equipment and returning it to the owner's warehouse.

RÄKI Volleyball

June 2021 – October 2021

Coaching Intern

Completed an internship for a private volleyball coach who played for two Division I programs as well as professionally in Switzerland. I learned to teach athletes to be patient and encouraged them to grow athletically and personally.

EDUCATION

California State University, Long Beach

Pursuing a BS degree in Computer Science. Courses include System Programming, Computer Architecture and Organization, Human Development.

Long Beach City College

Pursuing a degree in Computer Science. Classes include: Data Structures & Algorithms, Computer Architecture, Advanced C++, Calculus I & II, Elements of Group Communication and Film. Named to the Dean's List with honors.

Millikan High School

Studied 4 years in an accelerated college and career preparatory leadership pathway to university and pursue a professional and personal life of ethical leadership and impact.

Key Club member, a student-led organization where members make the world a better place through service, grow as individuals and as leaders.

Boys Volleyball 4-year player, team captain, 2022 All CIF Southern Section Team, First Team Moore League, Max Preps Player of the Year.

PROJECTS

Courtesy Board

I worked with the core leadership team at Rise of the Resistance attraction to reinstate the Courtesy Board. The board displays Guest feedback which leads to increased team awareness of strengths and areas for improvement. Making the board visually appealing and keeping the information updated frequently contributed to improving Guest satisfaction.

Fictitious Bank

I used C++ to create a fictitious bank that pulled information from a .txt file to create a user account number, deposit money in different accounts, and add the ability to deposit and withdraw funds.

Quote Generator

Using Python, I created a multiple choice game that gathered famous quotes from a .txt file and had users guess who said each quote.
